

Data Sheet

SAFEBASE PLAY 35 mm shock pad

Application	Shock absorbing underlay for playgrounds, landscaping and sport
Material	Closed cell PE foam
Density	40 kg/m³ (±10%)
Material properties	Environmentally friendly and UV-stabilized
Chemical compliance	Tested in accordance with DIN 15330-4
Colour	White
Thickness	35 mm (+/- 10%)
Installations dimensions	0,725 x 0,965 mm
M2/ Pallet	39,2 (56 panels)
Force reduction	70 % (CEN/TS 16717:2015)
Vertical deformation	16 mm (CEN/TS 16717:2015)
Water permeability	>2000 mm/h (EN 12616)
Dimensional stability / conditioning	Allow the shock pad to fully relax and acclimatize before cutting to minimize dimensional changes after installation
Limited product warranty	20 years
